January, 2026

How To Use This Summary

The Report: **SUMMARIES OF GOVERNMENT AGENCIES AND LOCAL GOVERNMENTS ORDERED BY COUNTY** shows the totals of property held by governmental agencies of the State and Federal Government, Municipalities, County Government, Special Districts, Volunteer Fire Departments, and Other Non-Profit entities. The report is generated in alphabetical order by county, but a governmental entity is not limited to land ownership in a particular county. There are nine columns of data relating to each government agency. Each column is described below.

1. **Owner.** This column list the name of the governmental agency or local government. A four-digit number precedes the name. This is the Public Lands Inventory (PLI) number used to match a parcel with a government agency.
2. **Total Parcels.** This is the total number of parcels for the government level.
3. **Parcels AS S/D Lots.** This shows the number of parcels given as subdivision lots. For these parcels, no acreage number can be obtained.
4. **Parcels As Frontage.** Parcels given as front foot or effective front foot. No acreage figure can be obtained.
5. **Parcels With No Size Data.** There is no information given regarding the size of the parcel.
6. **Parcels With Acreage.** The parcel size is given in acres, or was calculated to obtain an acreage figure.
7. **Total Acreage.** The total number of acres of those parcels with acreage data.
8. **Parcels With Value Recorded.** The total number of parcels with a monetary value recorded.
9. **Total Value Recorded.** The sum of the recorded monetary values for the given government level.

The bottom of the page has the totals for the numeric columns.
